

Greetings to Abba House Friends & Partners

David led this Chinese women to Christ...at our kitchen table. She has moved to our area on a student visa for her daughter's education. Her husband commutes here when possible, needs prayer. Above and beyond our target people of Thailand, David and I have lead others from Germany, Iran, Mexico, Canada and the USA to Christ, now China. Thank you so much for helping make this possible for our retirement of sixteen years this November.

Our ten year old well water pump gave out this month, thanks to our long time staff help, Tony (on the right) was able to get a professional here within hours, water pressure seen below. It's more expensive having our children home inside the city limits verses far out in the jungle area but times like this it's well worth it.

LV (pushing the vegetable cart) and Lita (on the far right) are a married couple volunteering with us for two months from Fuji also helping with our AH radio program every Saturday, LV with Fah translating. So far they are willing to serve at whatever we ask of them, we are very grateful.

Before and After picture of Sai who came to AH at ten years old and is now a junior at a local technology school (mechanical engineering). Thanks to your generosity to the Lord, he now has a bright future ahead of him. PTL

GOD BLESS AS WE SERVE THE KING OF GLORY TOGETHER, **DAVID AND JOYCE MOORE**
