

## AHF November Newsletter: Greeting to Friends and Partners

Abba House - Thailand - About four years ago the local police department moved into our college town community and enlarged. We asked them if AH could come up at different times and teach English to their employees, they said they were too busy, later we tried again. PTL a lead officer came by last week and asked if his two teen daughters and himself could come by our place here and take lessons and yes they started coming he also said when our next team comes from KCMO, they could come up to the station and work with some of his troopers. (AHF is walking dist to this new outreach)

Yahira from Mexico sharing at her church about coming for one year to AHF here in Chiang Mai, Thailand, she sold t-shirts to buy her airline ticket. Her room and board at AH is free, now she only needs extra expense money for transportation and activities. (Right Pic)

Abba House Thailand - I found it refreshing that the King of Thailand back in 1878 penned the attached notice - addressing the Freedom of Religion for all to remember.
