

## Abba House Foundation – July Newsletter: Greetings to Friends & Partners

Flash back photo: Everyone looks so young. I am so proud of how each girl has grown up into beautiful, strong smart young women as they pursue their dreams. Thanks Abba House for making those dreams possible. We love and miss each one of you. You're in our prayers from now until eternity. (Mark Custance) Memory in Review:

Fahi's Story: Fahi grandmother brought her to Abba House when she was nine years old as her father got HIV from a bar girl downtown and gave it to her mother, they both died that same year, Fahi was a savant (not autism) but prodigious, with an uncanny memory. Three months after moving in with us we sang Christian songs at a party down town. From the mic a pastor read an obscure Bible text that no one really knew and he said if you know where this verse can be found, you will receive a prize of the biggest gift under the tree. Fahi raised her hand and quoted the verse out of Isaiah perfectly, she told me

later that she memorized the Bible a month ago. Teachers hired her to grade their papers and one of them got close enough to get her pregnant while in the fifth grade. Ashamed she left and we never saw her again until 2020 one of our long time volunteers. Mark Custance recognized her and she said she has a daughter and lives with a man in a subdivision here in our city. The conversation was cut short but we know a little bit more about her story, our prayer is that our Loving Father God will united us again very soon...Amen ! (Past to Now).

Yahira (a one year volunteer from Mexico) teaching English Class to several of our neighbors-below is the Buddhist Thai lady that owns the local radio station where we have a Christian program every Saturday.

**GOD BLESS AS WE SERVE THE KING OF GLORY TOGETHER,  
DAVID AND JOYCE MOORE**
