

Abba House Foundation – September Newsletter: Greetings to Friends & Partners

It's true we have mentioned several times that our mission base in Thailand is a 95% Buddhist nation. However a Christian youth group seen below met using Abba House facilities because it has grown so much that they had 116 youth show up. WOW: This is quite the phenomenon happening here - 10/40 window. To God be the Glory. Amen (Pic seen to the right)

Thailand is the perverted sex capital of the world. Polyamory is the practice of, or desire for, intimate relationships with more than one partner, with the informed consent of all partners involved. It has been described as "consensual, ethical-responsible non-monogamy".

Their sad faces are saying 'someone love me.'

After I spoke at the Chiang Mai's women prison followed by an altar call, this woman sitting in the front row was the first to raise her hand. Speaking with her briefly prior to water baptism, she said she shot her husband five times at a local restaurant, she had five children with him and he was leaving her for a young Thai girl. They were new age people and some goddess told her to do it. I had her renounce all these false anti-Christ teaching she had been taking and prayed to renounce & repent with me. She was released after three years and sent back home to Canada. Then to Now: Abba House continues to minister the Love of God to both the adult women's and men's prisons of our city of one million people. Thanks for your Prayers and Support.

GOD BLESS AS WE SERVE THE KING OF GLORY TOGETHER, DAVID AND JOYCE MOORE
