

Abba House Foundation – October Newsletter: Greetings to Friends & Partners

Abba House - Thailand - Wood working group of drug rehab students has arrived to start classes tomorrow - David and Tony will start with making Church Pulpits, but first they will start on how to shop for tools and lumber, the other half of the day's they will have Bible study. David Moore wearing his carpenter hat - teacher - drug rehab ministry here to learn - it is always a plus to help them along with a life skill to put into practice. Amen

It is better to Teach Others How to Fish - than giving them a fish. But it takes Staff, Time and Money to head that direction. Pictured is AH gifting these carpenter/Bible class students with second hand good quality tools.

How and where to go to fix the tools once they break. How for them to teach others themselves to be a carpenter and of course it is very important to emphasize the half day of Bible Discipleship with a good curriculum. They themselves can teach from a new Thai Teen Challenge lesson teacher and student handbook. We brought all this to their attention.

Sang La our original house manager for the first ten years, her husband Supakit and their rehab team - which also lead in Wed night prayer circle here, have packed up and headed for their Northern ministry farm, coming back soon. (Left: Pic)

Like Pastor Jono said this morning, ten of his sermons could not match one set free testimony from a former drug addict in Jesus Name- Thanks for giving God the Glory this morning at Abba House Church - Chiang Mai♥♥♥ (Right: Pic)

GOD BLESS AS WE SERVE THE KING OF GLORY TOGETHER, DAVID AND JOYCE MOORE
