

Greetings to Abba House Friends & Partners – December Newsletter

Nan's story; 2005-We found her growing up in the Golden Triangle one of the largest opium-producing areas in the world, since 1950's. Most of the people in that area were addicted and Nan's father was a village Christian that also helped others to sweat drugs out using a clay body oven. Nan's mother died and his new wife did not like her which is common, worked her hard, did not feed her, beat her and sold her to work for others. These are the types of girls the traffickers zoom in on. We heard of this situation and took her home with us with her father's blessings. After graduation she worked for an optical shop and then later a skin care clinic, always top in sales. Pictured are her before and after pics. Thanks to Jesus and our AH Partners and friends.

Volunteer Scott Moore has completed his three year stay with Abba House Thailand and will fly out soon back to Ga./Fl. Pictured here we have Scott helping with the disabled children's home run by the Thai government.

After Church fellowship time at the lake, actually it is a common dirt quarry, roads and subdivisions are below sea level and need to add dirt to level it higher, the dirty water could be worse but on this day it seemed cleaner - life jackets provided - enjoying life ever chance we have as life is precious and a gift from God. We Praise His Holy Name. JESUS ♥☐ Christmas pics next month.

GOD BLESS AS WE SERVE THE KING OF GLORY TOGETHER, DAVID AND JOYCE MOORE
